Electronic Target Demo

Special thanks to Ron LeBlanc and Holly Stowe for making the long trip from Rhode Island to demonstrate the set-up, calibration and use of the Silver Mountain electronic target system at our last 1,000-yard practice (see photos below). Ron and Holly are regular participants in our long range matches, so it was nice to have a fun and informal demo by fellow shooters. They were kind enough to let a number of Forbes shooters join in the fun, and we all learned a great deal about the benefits of the system. The lower two pictures illustrate a comparison of the shots registered on the laptop display and the actual shots on the target, showing the capability of the system at 1,000 yards. During our last season the reliability and performance of the target pullers varied widely, so this option will be under serious consideration by the club in the future.

Presidential Election – The importance of getting out and voting during the upcoming Presidential election cannot be overemphasized.
